

SnoBiz®

The ONLY artificial snowflakes that have been tested and proven to be 100% environmentally safe! Perfect for falling snow, ground cover, and set dressing. Most cinematographers agree it looks better than the real thing! And it's less expensive than plastic snow per cubic foot! Soft puffed texture, the whitest available, forest friendly, no preservatives, and it melts away with water, so it can be simply washed away. All glycerides removed. Safe in streams and lakes. Toxicological test done for safety.

Specifications
