

We, at Fort Worth Opera, love the AquaMax Hazer! Opera singers are particularly sensitive to particulates in the air and comments about haze and fog are common occurrences. But with the Aquamax, we haven't heard a single complaint! With other hazers, we would have to bypass the smoke detectors in the theater to avoid any false positives. With the Aquamax, that step isn't necessary, we no longer need to compromise safety for theatrical effects. I recommend the Aquamax to any of my colleagues who ask about it.

It's everything we've looked for in a hazer-  
and it's organic!

Adam Shwartz  
Director of Production

### **AquaMax MP delivers the Healthiest Haze On Earth**

- **Award Winning (LDI 2013)**
