

DIRECTOR JR FAN

Our Director Junior™ Fan quietly focuses fog, wind, bubbles, up to 40 feet (13m) away in a direct line without spreading. The vortex airflow allows precise targeting to your subject, making the Director Junior Fans perfect for Theater, Concerts, Video, and Photography. Fans can be easily converted to 230v with a transformer.

FEATURES:

- Precise targeting capability
- Focus fog, wind, bubbles up to 40' (13 m)
- Perfect for theater, concerts, commercials, video & photography
- Manufactured in the USA
