

Designed and manufactured at CITC, the new SnoBox fills so many voids. It is now the quietest snow machine on the market at only 30 – 35lbs. It can be placed outdoors as it is weather resistant. The power is so low, that 10+ units or more can be connected to one outlet. It only uses one amp and has a simple on/off switch so even people who are non-professionals can easily make it snow. The metal, powder-coated cover and technology inside is top notch and made in the USA.

#### FEATURES:

- Quietest, all-in-one snow machine in the world
- Weather resistant for both indoor or outdoor use
- Extremely low power consumption
- DMX compatible with DMX FX-15
- Perfect for small spaces and lightweight

#### 1 YEAR WARRANTY

When using CITC Little Blizzard® Snow Fluids
