

A/C AIR LAUNCHER

Economical and used widely in the entertainment industry, our A/C Air Launcher is the professional's choice!

The A/C Air Launcher fires as soon as it's connected to a power source. Simply plug in, or use a momentary switch to save pressure for an additional shot before refilling. You can fit 3 speed load sleeves at a time in the barrel, or just fill it with bulk confetti or streamers. Use caps and foam pushers for extra distance. The included 5-gallon air tank must be filled from a compressor.

FEATURES:

- Perfect for indoors or out
- Holds either bulk or up to 3 speedloads
- Streamers fly to 100'
- Confetti flies to 35'
- 7 Gallon air tank included
- Fill at filling stations or with compressed air

We offer Stacked and Streamer Tissue Confetti as well as Mylar Confetti and SnoBiz bio-degradable artificial snow!
